## WORK EXPERIENCE

2025 || **RDCW Co., Ltd.**

Freelance

UX/UI Designed

- A website that provides temporary email creation to fulfill user needs, developed as part of a project by RDCW Co., Ltd.

2025 || **Nami Massage**

Software Engineering Project

UX/UI Designed & Frontend dev

- I am responsible for designing the UX/UI, which involves categorizing users into different roles such as masseuses, owners, and customers. This requires a comprehensive design that addresses the needs of all user types and supports further development, which I will continue to work on as a frontend developer.

## EDUCATION

2023 || King Mongkut's University of Technology North Bangkok  
Thailand

**Bachelor of science (B.SC.) in Computer Science**

- Developed a website that converts CSV and DCM data for visualization as part of the Object-Oriented Programming course.

2011 || Saint gabriel's college

**Graduated with a High School Diploma in the  
Math-Computing Branch**

## ABOUT ME

As a second-year Computer Science student, I have spent the past two years designing and developing web and mobile applications, using a range of tools such as Figma and various frameworks. I have a strong passion for design and a drive to innovate effectively. These qualities are what push me to continuously improve myself. I am eager to contribute and would be thrilled to join your team as a Full Stack Developer or UX/UI Designer.

## PROGRAMMING LANGUAGES

Javascript    Typescript    Java  
HTML    CSS

## FRAMEWORKS

Next.js    Express.js    Tailwind CSS  
Bootstrap CSS    Electron

## TOOLS

Git    Github    Docker    Figma  
Canva

## SOFT SKILLS

Adaptability    Interpersonal Skills  
Problem-Solving    Creative  
Emotional control    Teamwork  
Self-improvement

## MY WORK SAMPLE

- Showcases past web design and coding work, including Github links and a portfolio showing design work.
